

# EVERGREEN<sup>TM</sup> technologies

*Accelerating PC Performance*

evergreen  
**MxPro**  
**UPGRADE**  
for Pentium Processors

## Product Highlights

- Upgrades 75 MHz and higher speed Pentium processors
- Windows® 95 certified processor
- 64K Level 1 (write-back) cache
- Supports socket 5 and 7
- Universal voltage support
- Lifetime warranty

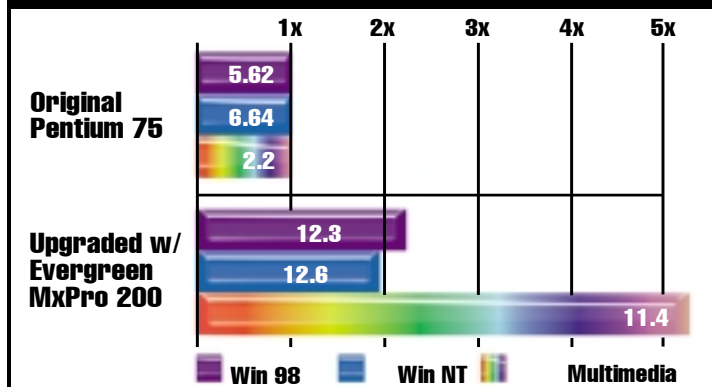

## Evergreen MxPro Processor Upgrade

The *Evergreen MxPro*<sup>™</sup> processor upgrade is a high-performance CPU replacement for 75 MHz and higher speed Pentium® processor-based systems. The advanced architecture boosts the performance of older systems and allows users to run software enabled for MMX<sup>™</sup> instructions.

The *Evergreen MxPro* leads the industry as the best price/performance solution in its class and is backed by a lifetime warranty.

## Software Performance Increase

\* All software performance results based on identically configured Pentium computer with 256K cache, 32 MB RAM. Windows 98 and Windows NT results based on the ZiIT-Davis Business Winstone 98 overall score. Multimedia/game performance based on imaging score of Norton Utilities v2.0 MMX enabled Media Benchmark for Windows 98.
